

ARUN WAKEKAR

QUALITY ANALYST | TEST AUTOMATION ENGINEER | ISTQB CTFL v4.0 CERTIFIED

+91 8698615947 · Chhatrapati Sambhajanagar, Maharashtra, India

PROFESSIONAL SUMMARY

Quality Analyst with **4 years of experience** engineering quality through intelligent automation across web, mobile, and API layers. Designs scalable test frameworks and automates complex business workflows using Selenium, Playwright, Appium, TestSigma, JavaScript, and TypeScript. ISTQB CTFL v4.0 certified with hands-on smoke, regression, functional, accessibility, and database testing inside Agile teams with CI/CD pipelines. Also ships live AI-assisted products with a tester's eye for quality.

CORE SKILLS

TESTING TYPES

Functional, Regression, Smoke, Sanity
API, Accessibility, Exploratory

TOOLS & PLATFORMS

Jira, Postman, JMeter, Charles Proxy
BrowserStack, TestFlight, GA, Confluence

AUTOMATION

Selenium WebDriver, Playwright, Appium
TestSigma, TestNG, Maven, JUnit, Grid

DATABASE & CI/CD

SQL, Database Testing, PostgreSQL,
MySQL
Jenkins, Git, CI/CD Pipelines

LANGUAGES

Java, JavaScript, TypeScript
Cucumber BDD, Python (Basic)

METHODOLOGIES

Agile, Integration, Acceptance,
Performance
Team Leadership, Mentoring

PROFESSIONAL EXPERIENCE

Quality Analyst — Pagesuite India Pvt Ltd

Sep 2024 – Present · India

- Conduct functional and regression testing on e-paper, magazine, and article modules of a global digital newspaper platform serving publishers across Australia, Germany, UK, and USA.
- Develop and execute automation scripts using TestSigma, Selenium, and Appium to streamline testing across web and mobile releases.
- Validate core user journeys — bookmarking, article sharing, edition management — and run smoke tests certifying build stability for daily releases.
- Debug API interactions with Charles Proxy, monitor user behaviour with Google Analytics, test iOS TestFlight builds, and run cross-browser checks via BrowserStack.

Automation and Manual Tester — Sankey Business Solutions Pvt Ltd

Nov 2022 – Sep 2024 · India

- Designed and implemented automation testing frameworks for the Printing and Logistics domain, leading testing of print management software for accurate document processing.
- Validated order processing, print job management, inventory, shipping, quality control, and supplier modules; optimised supply-chain workflows with logistics teams.
- Performed functional, integrity, retesting, and regression testing across web and mobile applications through all product testing phases.

AI-POWERED DEVELOPMENT PROJECTS

Uses AI assistants as pair programmers to design, build, test, and ship real products — with QA discipline applied to every release.

- SaveMake — savemake.app (LIVE):** single-pane bookmark workspace — boards, columns, and cards, import from Chrome/Safari/Firefox, password-protected speed dials.
- AI Business Tool — aibusinessstool.com (LIVE):** lists SaaS and AI tools on 300+ high-authority directories; built end-to-end with AI pair programming.

EDUCATION

Bachelor of Engineering (B.E) — Savitribai Phule Pune University

Sir Visvesvaraya Institute of Technology, Nashik · Class of 2020

CERTIFICATIONS

- Certified Tester Foundation Level (CTFL) v4.0** — ISTQB
- Selenium Certification** — Naresh IT, Hyderabad
- Core Java Certification** — Naresh IT, Hyderabad
- Generative AI Mastermind** — Outskill
