PROFESSIONAL SUMMARY

QA professional with 3+ years of experience in automation and manual testing. Specialized in **Selenium**, **Appium**, **Playwright**, and **TestSigma** with a proven track record of delivering high-quality software across web and mobile platforms. Skilled in API testing, database testing, CI/CD, and AI-assisted workflows.

PROFESSIONAL EXPERIENCE

Quality Analyst — Pagesuite India Pvt Ltd

Sep 2024 – Present | India

- Functional and regression testing of e-paper, magazine, and article modules; validated bookmarking, sharing, and edition management.
- Developed and executed automation scripts using TestSigma, Selenium, and Appium; smoke-tested daily release builds.
- Monitored user behavior and debugged API issues with Google Analytics and Charles Proxy.
- Tested iOS apps via TestFlight and ran manual cross-browser testing on BrowserStack.
- Identified and reported critical issues in daily newspaper apps and web portals.

Automation and Manual Tester — Sankey Business Solutions Pvt Ltd

Nov 2022 – Sep 2024 | India

- Designed and implemented automation testing frameworks for the Printing and Logistics domain.
- Performed functional web-application testing; tuned performance and built capacity plans for testing.
- Led testing of print management software and validated supply-chain optimization solutions with logistics teams.
- Participated in all product testing phases across mobile applications and web.

KEY SKILLS & TOOLS

Testing	Android, iOS, Web Portal, Accessibility, Smoke, Regression, Functional, API, Test Case Design
Automation	Selenium WebDriver, Appium, Playwright, TestSigma, TestNG, Maven, JUnit, Selenium Grid
Programming	Java, TypeScript, JavaScript, Python (Basic), Cucumber BDD, Data-Driven / Modular / Hybrid Frameworks
Tools	Jira, Google Analytics, Confluence, JMeter, Charles Proxy, TestFlight, BrowserStack, Postman
DB & CI/CD	SQL, Database Testing, PostgreSQL, MySQL, CI/CD Pipelines, Jenkins, Git

FEATURED PROJECTS

Global Digital Newspaper Platform *(News & Media | Android, iOS, Web)*

- Worked on a global digital newspaper platform encompassing regional newspapers from Australia, Germany, UK, and USA, delivering e-papers, magazines, and articles to a diverse user base.
- Validated bookmarking, content sharing, and multi-edition management; performed extensive accessibility and cross-device/browser compatibility testing using BrowserStack simulations.
- Implemented automation scripts with Selenium, Appium, and TestSigma; debugged real-time user interactions via Google Analytics and Charles Proxy; ran smoke/regression cycles under Agile with CI/CD and validated iOS TestFlight builds.

Printing & Fleet Management System *(Printing & Logistics | Web)*

- Designed and implemented automation testing frameworks for a comprehensive Printing and Logistics management solution used across the print supply chain.
- Tested end-to-end modules: Order Processing, Print Job Management, Inventory, Shipping & Distribution, Quality Control, Supplier Management, Customer Communication, and Regulatory Compliance.
- Built the automation stack on Selenium, Appium, and Cucumber BDD with Jenkins CI pipelines, Jira for defect tracking, and Postman for RESTful API validation.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.E) — Savitribai Phule Pune University, *Sir Visvesvaraya Institute of Technology, Nashik (2020)*

- Certified Tester Foundation Level (CTFL) v4.0 — ISTQB®
- Selenium Certification — Naresh IT (Hyderabad) | Core Java Certification — Naresh IT (Hyderabad)
- Generative AI Mastermind — Outskill *(GenAI fundamentals, practical applications, and AI-powered automation)*
